

Ramard[®]

LEADERS IN EQUINE AND PET HEALTH AND PERFORMANCE PRODUCTS

Real Science, Real Results

As a dedicated horseman and competitor for 30 years I have always wanted the very best for my horses and pets. I felt like there was a great divide between cutting edge science and the products available to the horse and pet community. So, I decided in 2006 to create Ramard, a company that would develop and create next generation products and proprietary ingredients that would be available to everyone. I assembled a team of biochemists, molecular biologists and researchers from around the world, the goal was simple and clear, create the very best and most effective health and performance products for horses and pets.

Today, Ramard's Equine Products are used by Olympic Equestrians, World and National Champions in every breed group, top racing trainers and those who want the best for their horses, even if they are retired or just a loved companion. Ramard's Pet Products are quickly becoming the first choice of Westminster Champion dog handlers and breeders as well as those who demand the best for their canine and feline companions.

I hope you will experience for yourself how Ramard can change the way you think about health and performance products for your horses and pets.

Whether you are competing in the show ring, on the race track, or just competing for the love and affection of your back yard friend, you can count on Ramard to deliver the quality products that you deserve, expect, and rely on.

Ramard products are carried by Veterinarians and retailers around the world.

A handwritten signature in black ink that reads "Jeff Ramey". The signature is fluid and cursive, with the first letters of "Jeff" and "Ramey" being significantly larger and more stylized.

Total Joint Care

PERFORMANCE FORMULA

Total Joint Care is a highly-beneficial, synergistic blend of the most powerful joint care products available. While other products focus on the cartilage, **ONLY** Total Joint Care addresses the entire joint. Synovial fluid, cartilage, soft tissue, tendons and ligaments all need to be healthy to achieve peak performance.

The Total Joint Care advantage comes from the high molecular weight Hyaluronic Acid combined with several other key ingredients. When the Hyaluronic Acid is combined with glucosamine, chondroitin, and MSM at the proper concentration and purity, the benefits are greater than any of the individual ingredients alone.

The Complete Equine Joint Product with **HYALURONIC ACID**

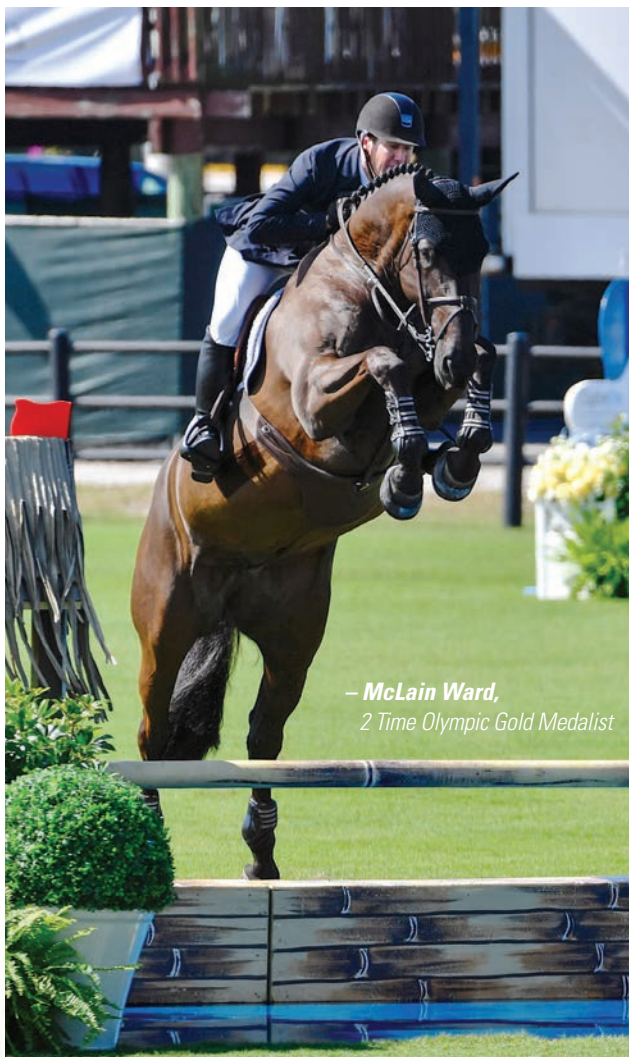

Studies have shown that the ingredients in Total Joint Care have been proven in:

- Replenishing synovial fluid which cushions and lubricates the joint
- May reduce inflammation associated with everyday exercise
- May reduce discomfort and stiffness associated with everyday exercise
- Supporting the soft tissue
- Supporting the ligaments and tendons
- Bioavailability through oral application

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients Per Scoop (included)	0.6 oz
Glucosamine HCL (Shellfish Source)	6000 mg
Dicalcium Phosphate	3580 mg
Chondroitin Sulfate (Bovine Source)	3000 mg
Methylsulfonylmethane (MSM)	3000 mg
Vitamin C (Ascorbic Acid)	1000 mg
Hyaluronic Acid Sodium	200 mg
Purified 1 million Dalton molecular weight or greater, Microbial fermented (not derived from animal cartilage or collagen based)	
Zinc Oxide	50 mg

Available in a 30 day jar or a 180 day pail

– **McLain Ward**,
2 Time Olympic Gold Medalist

Total Blood Fluids Muscle

REPLENISHMENT

Electrolytes / Amino Acids Blood Builders

Available in a 30 day jar or a 180 day pail

Extreme equine athletes demand Total Blood Fluids Muscle. Racing, showing, training, hauling or any other strenuous demands placed on your horse will cause a loss of energy and essential nutrients. It will also strain the immune system and decrease the horse's ability to recover and maintain lean muscle mass.

Physical exertion, sweat, a change in weather, heat and humidity are contributing factors in the loss of electrolytes, build up of toxins, and nutrient loss in your horse. BFM was developed to replenish the vital nutrients lost during stress and exercise. It will help prevent the signs of dehydration, protect muscle tissue, and support the blood.

Essential "B" Vitamins, minerals and iron to support increased oxygen carrying ability and Red Blood Cell Count.

Branch Chain Amino Acids added to support repair of muscle tissue damage associated with training and build lean muscle mass.

Electrolytes replenish the daily loss of minerals, and used daily, aid in the prevention of Lactic Acid build-up associated with muscle exertion. BFM can be top dressed on the feed or mixed with water in an oral dosing syringe. Use twice daily the day before, the day of, and the day after a race or event.

Ramard Blood Fluids Muscle may be beneficial for:

- Muscle repair and recovery
- Building lean muscle mass
- Boosting energy
- Support Increased Red Blood Cell count
- Replenishing electrolytes

Total Calm & Focus

COMPLETE CALMING FORMULA

Why is Total Calm & Focus the Leading Calmer in the Nation? Because it WORKS.

Total Calm & Focus is a natural formula developed to calm your nervous, anxious horse while enhancing focus. Ramisol™ is the cutting edge ingredient in Total Calm & Focus that has offered proven results in the previous 3 Olympic Games, World Equestrian Games, and World and National Championships across all breed groups and disciplines. Ramisol™ helps support normal Cortisol levels. The stress hormone Cortisol is released in response to high intensity exercise and stimulus.

Stress and high levels of Cortisol may be related to fatigue, changes in mood and aggressive behavior, depression, and colic. Ramisol™ helps minimize the increase in normal Cortisol levels induced by rigorous training. Magnesium and a balanced blend of B vitamins are added, which have shown to be very beneficial for nervous, hyper horses.

Let Total Calm & Focus eliminate your horses' stress and discontentment and allow you to get back to safe and productive training, showing or a relaxing trail ride.

Total Calm & Focus may be used for Showing, Sales Prep, Racing, Hauling and Training.

There are no herbs or banned substances in Total Calm & Focus and it will not give your horse a drowsy effect or numbing of the mouth as many products do. You will merely lose the nervous behavior while maintaining a bright alert horse with forward ears and focused energy for the task at hand. As the name implies...Calm and Focused

Helps maintain a normal and relaxed disposition

Promotes mental alertness without drowsiness

Supports performance, stamina and endurance

May reduce the possibility of digestive colic

Helps maintain calmness

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients Per Scoop (included)	0.6 oz
Thiamine	2000 mg
Magnesium	1600 mg
Ramisol™	500 mg
Riboflavin B2	500 mg
Pyridoxine B6	500 mg
Niacin	150 mg
Panthenic Acid	25 mg
Vitamin B12	1000 mcg
Folic Acid	1000 mcg

Available in a 30 day jar, 180 day pail or oral syringe

Total Immune Blast

EQUINE IMMUNE SUPPORT

The next generation in equine immune support. Nucleotides contribute to DNA synthesis as structural units and are therefore a key element in cell replication. Horses that have a stressed immune system from training, environmental changes or breeding season, will benefit greatly.

Total Immune Blast will give your foals a jump start to achieve their maximum potential while helping them properly develop their immune system and bone marrow, and give the mares the support they need while in foal.

Total Immune Blast should be given to horses with stressed immune systems or horses stabled at race tracks or show facilities where they are susceptible to illness.

The free form nucleotides in Total Immune Blast are equine specific. You will only find this at Ramard Inc.

Available in a 30 day jar or a 180 day pail

Basic advantages of Total Immune Blast

- Helps your horse bounce back quickly.
- Supports normal immune response.
- May help your horse's body fight the damaging effects of free radicals.
- Superior for respiratory issues such as colds and runny nose.
- Supports your horses ability fight off infections.

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients Per Scoop (Included)	per 0.6 oz
Neucleoforce™	6000 mg
Glutamine	2000 mg
BioFlavex™	1500 mg
Ascorbic Acid (Vitamin C)	1000 mg
Omega 3 Alpha Linolenic Acid (ALA)	670 mg
Omega 6 Gamma Linolenic Acid (GLA)	190 mg
Zinc	50 mg
Vitamin A	5000 mcg
Selenium	350 mcg

Neuro-Vet

Aids in Neuromuscular and Nervous System Disorders

The ingredients in **Neuro-Vet™** have been clinically studied for many years and have been proven to support neurotransmission, cognitive function and nervous system disorders. These ingredients are known as acetylcholinesterase inhibitors, which means that it stops an enzyme from breaking down acetylcholine. Acetylcholine is known as the learning neurotransmitter, and is involved in muscle contractions and function. Neuro-Vet rapidly delivers choline to the brain across the blood-brain barrier and have shown positive results against long-term neuromuscular issues that leads to varying degrees of skeletal muscle weakness. These ingredients work to keep acetylcholinesterase in check, making sure that enough messenger molecules remain at work to protect neurotransmission and muscle functions.

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients	per 15 ml (0.5 oz)
Neuro-Vet Proprietary Blend: Choline Bitartrate, Taurine, Vitamin D-3, L-Theanine, Alpha GPC, Huperiza Serrata, Calcium Carbonate	1,254 mg

May be beneficial for:

- Neuromuscular issues
- Nervous system disorders
- Unsteady gate or balance
- Muscle tremors
- Anhidrosis
- Stringhalt
- Shivers

Available in an oral syringe

Total Gut Health

GASTROINTESTINAL HEALTH

Total Gut Health is one of the most comprehensive gastrointestinal products ever produced; addressing the entire GI tract as well as issues which can be caused by poor absorption. The equine specific free nucleotides support cell replication and the lengthening of villi in the digestive tract, shielding it while helping to maximize absorption. Only Total Gut Health can deliver these results.

Bioflavex has been proven to support the body's natural ability to balance bacteria known to cause GI upset. Ramard's Beta Glucan, with its specific bond of (1,3/1,6) is a very powerful immune support product which helps to facilitate normal bowel motility, and may help modulate normal mucosal immunity of the intestinal tract. Rather than adding more bacteria, TGH supports the beneficial bacteria which are normally present in the intestinal tract.

TGH was formulated to help with the following issues: poor absorption, discomfort of the intestines due to an over abundance of bacteria or sand buildup, loose stool induced by stress or diet and stomach upset. TGH promotes the growth of healthy intestinal microflora, helping to support intestinal health and immune function while replacing efficiency lost with compromised GI systems. TGH supports the body's normal healing processes and mucosal lining. The response time is fast and amazing.

Helps or Supports:

- *Keeps the digestive tract functioning properly and may help reduce the possibility of colic.*
- *Supports normal stomach pH.*
- *Helps address colic caused by sand and other materials.*
- *Aids in reducing occasional loose stools due to environmental stress or changes in diet.*
- *Supports digestive tract health.*
- *Helps maintain proper gut flora.*
- *Prevents free radical damage.*
- *Helps support the protective layers of the bowel.*
- *Supports the growth of beneficial bacteria in the intestines.*
- *Enhances the immune response.*

The Next Generation in Total GI Health Support

*Available in a 30 day jar, 180 day
pail or oral syringe*

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients Per Scoop (Included)	per 0.6 oz
Neucleoforce™	6000 mg
BioFlavex™	2000 mg
Glutamine	2000 mg
Psyllium	1000 mg
Magnesium	200 mg
Bromelain	100 mg
Beta Glucan	100 mg
Zinc	50 mg
Vitamin E	30 IU

***Total Gut Health** is the next generation in gastrointestinal health support and the results will prove it.*

Total Tendon Repair

TENDON AND LIGAMENT FORMULA

Total Tendon Repair is a next-generation tendon and ligament formula using a patented and clinically studied ingredient to help support the tendons, ligaments and the normal healing process. Total Tendon Repair supplies the tendons and ligaments with ingredients required to help maintain its biomechanical properties and support body's natural regeneration and recovery process. It will also support an increase in Type I collagen, which provides greater tensile strength and could help to reduce recurrences. It is critical to address tendon and ligament issues early before scarring occurs. Tendon related incidences are the most common veterinary related reason for retirement in performance and race horses.

Available in a 30 day jar
or a 90 day pail

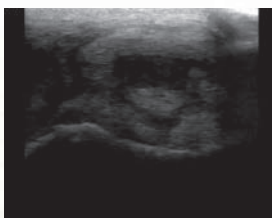

Next-Generation Tendon and Ligament Formula with **TendoFit™**

Studies have shown that ingredients in Total Tendon Repair have been proven in:

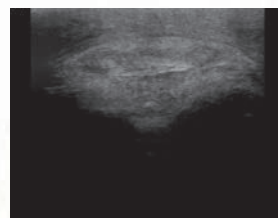

- Normalizing Tendons and Ligaments.
- Supporting the healing process.
- Support alignment of tendon fibers.
- Support strength and elasticity.
- Support healthy tendon and ligament formation in growing young horses.
- May reduce discomfort and inflammation associated tendons and ligaments.

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients Per Scoop (included)	0.6 oz
TendoFit™ Proprietary Blend: (Mucopolysaccharides and Type 1 Collagen)	2,200 mg
Methylsulfonylmethane (MSM)	2,100 mg
Hydrolyzed Collagen	2,000 mg
Calcium (as dicalcium phosphate)	1,000 mg
Phosphorus (as dicalcium phosphate)	775 mg
Vitamin C (as ascorbic acid)	315 mg

Before Total Tendon Repair

After 60 days of use

Total Equine Relief

SUPPORT ACHEs AND DISCOMFORT

Total Equine Relief was developed to ease the effects of aches and support the normal inflammatory response caused by training and competition. These conditions may cause heat, stiffness and discomfort, which could prevent the activities associated with your horse. Although competition horses are more prone to these issues, all horses will benefit from the relief of aches and tenderness associated with every day activities.

Total Equine Relief will help support the normal recovery process and ease discomfort without causing stomach upset. There are no harsh side effects that can lead to other issues associated with those conditions. Older horses will benefit from the effects of easing joint stiffness and discomfort.

Available in a 4.5 oz jar,
18 oz jar and a oral syringe

Product Facts For Use in All Ages of Horses and Ponies

Active Ingredients	per 2 scoops (0.2oz) (6.4g)
Equinol™	5,150 mg

Total Equine Relief may be beneficial with these issues associated with every day activities:

Swelling • Aches

Redness • Stiffness • Heat

Seasonal Allergies

Discomfort • Fever • Bruising

Total Equine Relief is beneficial for all ages of horses.

One 15cc syringe is one dose for a 1,000 lb horse.

Total Respiratory & Endurance

ENHANCES OXYGEN CAPACITY

A horse that breathes better, performs better.

Ramard has created the next generation in respiratory support: Total Respiratory & Endurance. This powerful proprietary Ramard formula has never been available until now. Our aim was to create a product which would maximize oxygen capacity, support the body's ability to fight mucus, and combat seasonal allergies.

This is exactly what Total Respiratory & Endurance will deliver. Total Respiratory & Endurance supports the body's ability to fight off a variety of challenges that may lead to respiratory distress. Horses will experience enhanced performance and race times due to its enhanced oxygen utilization.

Total Respiratory and Endurance may be beneficial for:

- Enhanced performance
- Respiratory issues
- Enhanced oxygen utilization
- Support the body's ability to fight mucus
- Support for seasonal allergies
- Stable Cough related to dust

Product Facts For Use in All Ages of Horses and Ponies

Active Ingredients	per 0.5 oz
Clairisol™	1.250 mg

Available in an oral syringe

Total Body Rinse

Beneficial for Scratches and Skin irritations on Horses and Dogs while deterring flies and fleas.

Available in a 30 oz jar

Total Body Rinse is a natural, non-toxic, full body rinse formulated to soothe and clean the skin and hair. The herbal blend of natural additives will add luster to the hair and reinforce the natural strength of the hair follicles. As an added benefit, this innovative formula blends flower extracts to support healthy skin and hair coat. This botanical blend will leave your horse or dogs' skin clean and clear, with no abrasive smell.

Relief Gel

ARNICA - MSM - CALENDULA

Relief Gel™ is a unique proprietary blend of powerful analgesic ingredients formulated to quickly relieve joint, tendon, leg and muscle discomfort and swelling. **Relief Gel™** is Odorless, Colorless and has no residue or burning sensation. Arnica, MSM and Calendula have long been proven to be excellent in managing swelling and discomfort, but have never been combined into one powerful formula until now.

Directions for use:

Legs: To relieve aches, discomfort and swelling, rub Relief Gel™ thoroughly onto the legs three times daily. Excellent for pre-workouts and post-workouts. May be applied under wraps during trailering to reduce swelling and stocking-up.

Back and body: To relieve sore stiff muscles and relieve swelling, rub thoroughly into the affected area three times daily. Apply to stiff joints to relieve stiffness, discomfort and increase range of motion.

Active ingredients: Arnica Montana, MSM (methylsulfonylmethane), Calendula

Contains No Prohibited Substances

Total Pre & Probiotic

Total Pre & Probiotic will rebalance and support total digestive health. Merely adding beneficial bacteria is not enough. Ramard has added Prebiotics Chicory Inulin to this powerful formula to feed the beneficial bacteria that are present in the digestive track. Research has shown that these prebiotics pass through the stomach reaching the hind gut where they feed the healthy, good bacteria and actually increase the probiotics Lactobacillus Casei and Bifidobacterium Breve thus inhibiting an imbalance while increasing mineral absorption, especially Calcium. Citrus meal containing powerful bioflavonoids as Optimize Balance has been added to the formula and is proven to support the body's natural ability to balance bacteria known to cause GI upset.

**5x
STRONGER**

Includes clinically studied ingredients such as probiotics, prebiotics and optimize balance

Product Facts: For Use in All Ages of Horses and Ponies

Inulin	250 mg

Available in a 8.5 oz jar, 5 lb jar and oral syringe

Total Energy & Stamina

ENHANCES ENERGY AND STAMINA

Total Energy & Stamina is the first product of its kind to support vasodilation, energy conversion, and the elimination of lactic acid in the muscles. Performance horses, such as race horses and show horses, will greatly benefit from the added energy and stamina they will experience.

Formulation: Adenosine -5- monophosphate (AMP-5) is a nucleotide present in all cells and is involved in energy metabolism derived from the breakdown of carbohydrates, fats, and proteins. It is also a powerful vasodilator that supports an increase of blood flow to the heart, muscles, lower legs and hooves. By producing a marked increase in blood supply to the muscles and heart, Total Energy & Stamina will support an increase in oxygen and essential nutrient supply to these areas during hard work and reduces heart strain. It also improves the efficiency of removal of waste products, such as lactic acid, to delay the onset of muscle fatigue and lowers the risk of Tying Up. To naturally support these processes in the body, B Vitamins and amino acids have been added to this powerful formula to deliver a complete, balanced energy and stamina formulation.

*Enhances Energy and Stamina
Eliminate Lactic Acid / Muscle Fatigue*

Product Facts: For Use in All Ages of Horses and Ponies

Active Ingredients	per 15 ml (0.5 oz)
Energy & Stamina Proprietary Blend Adenosine 5' Monophosphate, Creatine Pyruvate, L-Arginine, L-Carnitine, L-Glutamine, Potassium Chelate, Magnesium Malate, Niacinamide, Vitamin B12, Selenium	6,001 mg

Canine Care

Innovative Canine Products for Specific Health Concerns

The highest quality products made with superior ingredients • No artificial fillers or additives • 100% guaranteed
Independent product reviews and analysis ensure highest quality and purity
Products manufactured in a FDA inspected and cGMP compliance facility

Total Joint Care Canine

- Now with **Omega-3's** and Equanol for discomfort.
- Replenish synovial fluid that cushions and lubricates the joint.
- May reduce inflammation associated with everyday exercise.
- May reduce discomfort and stiffness associated with everyday exercise.
- Support the ligaments and tendons.

Available in 45 flavored soft chews

Total Hemp Canine

To Help with:

- Age Related Decline.
- Neurological System.
- Emotional Balance.
- Occasional Discomfort.

Available in 45 flavored chew tablets

Total Calm & Focus Canine

- Developed to calm your nervous, anxious canine and enhance focus.
- No drowsy effects.
- Perfect for hyperactivity, separation problems, thunderstorms, fireworks, grooming, vet visits, traveling, destructive or aggressive behavior and digging and scratching.

Available in 45 flavored soft chews

Total Canine Relief

- Oral paste in a sweet mint flavor.
- Eases the effects of aches and swelling associated with everyday exercise.
- Promotes faster recovery.
- Beneficial for both joints and tendons without causing an upset stomach.
- No harsh side effects.

Available in 45 flavored soft chews

Total Osteo-Bone Health Canine

- Formulated to support bone density.
- Contains BonOlive™, proven to support bone mass and stimulate bone-forming cells.
- Superior for older dogs and growing puppies.

Available in 60 flavored chew tablets

Total Weight and Glucose Control Canine

- Glycemitol™ is a cutting edge product that has been proven to reduce carbohydrates from converting into sugars.
- Chromium, to support glucose tolerance and blood sugar levels.
- Vitamin C and Green Tea to support a sense of well-being and vitality.
- No stimulants.

Available in 45 flavored chew tablets

Total GI Health Canine

- One of the most comprehensive gastrointestinal products ever produced.
- Addresses poor absorption, occasional intestinal discomfort, loose stool and upset stomach associated with normal dietary indiscretions.
- Promotes growth of healthy intestinal flora.
- Fast response time.

Available in 45 flavored chew tablets

Tidy Duty Canine

- Formulated to address occasional loose stool, garbage gut and upset stomach.
- Support healthy digestion.
- Use pre or post deworming.
- Use when changing food.
- Use during travel.

Available in 30 flavored chew tablets
